Valley Sports take to the Air

Where to listen for the best of Valley Sports Talk Radio

As a female I am not too sure of all the hoopla, but the guys here swear by one our client's radio show. It can be heard at each day. Roc (Mike Muraco) and Manuch (Dan Manucci) pack their show with interviewing the top sports celebrities that are live, not taped. **Calling All Sports** brings the loyal sports fans to local sports radio by promoting all sports, including all the local high schools, college and professional teams.

Roc and Manuch will broadcast live from a different Native New Yorker Restaurant every Wednesday from March to August! The Battle of the Bone 2008 Wing Eating contests will be held

each Wednesday at a different Native New Yorker. Again, listen for details.

AM 1060 Sports Radio with hosts Roc and Manuch. Weekdays from 3- 6 pm

Roc and Manuch can also be heard worldwide on Sporting News Radio - Sat and Sun 4pm-8pm MST Check them out!

Editor's News and Notes *Cleo, Editor*

Memorial Day Picnic – was wet but the burgers were great! Thanks Ray for cooking them up.

Ramon has been testing with Temp Fire Department and is waiting for word on results.

Brian P has moved. He now lives closer to the fun of ASU. Don't stay up too late BP.

Justin rocked out over Memorial Day at Dos Gringos in Mesa with many AI employees in attendance!

Lisa has been asked to do more in her acting with the film in Tucson. She now has a line!

Michelle is moving into a house in the historical district!

Keep up with me online for even more gossip.

Planning Ahead

For an unknown future.

Times are tough right now and there is no better time to evaluate where you stand financially. May we suggest getting some advice from one of our clients before tragedy strikes your financial life. **Clark Law Offices** specializes in the much needed Estate Planning. You wonder why you would ever need to plan when you don't even consider your modest means to be an estate. That is exactly why you do. Estate Planning is "planning" before something goes wrong. A will, power of attorney or any other legal maneuver to protect your assets before the inevitable occurs.

So you forgot to plan and you find yourself at your wits end and have no clue on how to bail yourself out of your crisis, again Clark Law Offices handles

the dreaded "B" word, bankruptcy. Mari Jo Clark comes from the world of corporate attorneys and she decided that her practice would not be the "mill" ran firms. Her beliefs and expertise are for the client's best interest and not just to push through another "meal ticket" client. She works with her clients to have the best outcome for them and truly believes in doing things the right way. Call her today if you feel you have any financial concerns that need to be evaluated.

Memorial Day Watermelon Seed Spitting!

Meet the AI Car Guy

Principles of Service and Value Collide

What is your biggest fear when it comes to your car breaking down? Getting ripped off right? We have a wonderful client that gives such wonderful customer service with such honesty you may not believe me when I tell you that he is a car mechanic. I am not kidding.

Denver Davis of Davis Family Auto has been repairing and maintaining the Affordable Image delivery truck and our employee's cars for some time now. He has a mobile service where he will pick up your auto at your work, take it back to his shop, and do the oil change or any repairs and will also guarantee his work.

How can you beat that? You don't even need to leave your office or home and he takes care of it all. We find that his prices are more than fair and combined with his service it has saved us so much more than money, it has saved us time. Time is something that you can't put a dollar amount on or get back with any amount of work. I highly recommend checking

out Davis Family Auto and know that you will get an honest answer to your problem and have it fixed right the first time! I almost forgot to mention at great prices!

Denver is an ASE Certified mechanic, he has been in the industry for 20 years. He offers a 12 month 12,000 mile warranty on repairs, can work on any vehicle, and handle all types of repairs. He is mobile and also does pick up and delivery valley wide (check availability). Denver is also willing to take on fleet accounts.

Give him a call today and tell him that Cleo sent you. 602-717-9700

R R & A for AI

Affordable Image heads to Parker, AZ

Rest, recuperation and appreciation were in order for the staff of Affordable Image for two weekends on the Colorado River. Everyone enjoyed an action packed weekend filled with all kinds of water sports which included jet skiing, boating, wake-boarding and tubing. And for land lovers there was hiking, biking, and quadding. (For those who never have done that, it is with ATV's.) With so much to do I am not sure that anyone got to rest, but it sure is relaxing in that part of Arizona.

With Affordable Image having a larger staff, two weeks were in order to split them into two groups. In all fairness names were drawn, which helped from everyone signing up on one day. The weekends were to show staff members how much they are appreciated with all the hard work they do for you, our customer. From Friday to Sunday, they were kept moving and I wonder if they couldn't wait for Monday to come along so they could rest!

The arrival consisted of rules of the park and a good bowl of homemade chili. The night ended with S'mores around the campfire, and with some competitive beer pong and ghost stories to everyone's delight. Everyone was ready to get some shut eye to start fresh the following morning.

When Saturday morning rolled around everyone was in for the much expected craft challenge. Split

Group #1: Zeke, Tricia, Aaron, Michelle, Chris, Ramon, Marcos, and Lisa

Group #2: Tyler, Justin, Ray, Erica, Brian, and Dyan

into teams of two, with names drawn for fairness, they were ready to win. Last year they built bird houses with their own imaginations and use of natural and recycled materials they found around the area. This year they were to follow directions exactly to make a floatable boat.

The boat was made for the level of 3 year-olds and boy they were sure challenged! In all fairness the 3 year-olds were shown by the teacher and the AI teams were to read directions without any pictures. It was like building a bookcase from a foreign country with directions you needed to read 500 times before it made sense! It truly was entertaining for Mike and me to watch them scramble to be the first to figure it out.

With the building challenge over we went to the river and raced them. Week one the winners were Chris and Ramon and week two the winners were Dyan and Tyler. With the rest of the day planned we took to the water for our fun! I am not too sure what happened to

Aaron and Michelle's, but they need to talk to some 3 year olds for some help!

Week one was so windy that on Lake Havasu, driving the boat was like being on the ocean! Needless to say we did as much as we could before the weather took its toll on us. Week two provided much better weather, and the activities were at full blast. Too bad Tyler's sun screen was not put on correctly. His legs were cooked.

With day one over, and after our extreme sports, each Saturday was filled with activities of fun. Karaoke, darts and once again telling stories were in order, ending with a movie on weekend two.

Sunday rolled around and the day was left up to each to have their chosen fun, and of course to pack up and head back to Phoenix to once again start that wonderful week of work! The food was great, the company was excellent and the location was beautiful. We hope to do it again in the fall.
